British Standard 8599 First Aid Kit Sizes and contents - effective from 30 June 2011, transition period to December 31, 2011. HSE position is as follows: -

*"It doesn't matter, provided the needs assessment has been undertaken, whether a dutyholder purchases a kit off the shelf, or a bespoke first aid kit, or purchases a kit that matches standard BS 8599. HSE will not be taking action against anyone who has a non BS8599 first aid kit as long as it meets the needs assessment of that workplace after the 31st December 2011. Obviously purchasing a BS8599 kit could provide one means for a dutyholder to discharge part of their first aid responsibilities, but it is not the only way".*
